

Christopher Botha CA (SA) – Financial Manager for Quickbooks SA

I originate from Welkom in the Free State, where I completed my schooling. After which I moved to Johannesburg to study a BSc Mathematics and Applied Mathematics. During my studies I found that I was interested in “business” and the inner workings thereof. After completing my BSc, I returned to Welkom, where I started my studies towards becoming a CA (SA). I completed my articles while studying part time through UNISA. After obtaining my CA (SA), my wife and I decided to move to Johannesburg to further our careers.

For the largest part of my working career I was involved in the external auditing field where I gained a vast amount of experience in a wide variety of businesses. Towards the end of 2014 I decided to move into commerce and joined the Quickbooks family as the financial manager.
